Obaadjiwan
First Nation

It all began...

- Watersheds Canada received funding from Fisheries & Oceans Canada
- Long Lake Property Owner's Association was enthusiastic about enhancing two walleye spawning beds
- And a partnership was born!

Site Visit & Planning

- **Funding: Fisheries & Oceans Canada**
- Site visit was conducted to determine site locations & amount of stone needed
- Planning began to acquire contractor, barge, heavy equipment, washed river stone & volunteers

- Long Lake is located in Central Frontenac, near Parham

But Mother Nature doesn't always cooperate!

Photo credit Marilyn Casselman

So we went with Plan B...

Moving rock & volunteers across the ice!

Many hands make for light work...

After 2 hours...2 enhanced walleye beds

Photo credit Jesse Stenson

Then we waited...for Ice Out

Success!!!

Never doubt that a small group of thoughtful, committed, citizens can change the world. Indeed it is the only thing that ever has.

Margaret Mead

Thank You!
