Helping Kids Love Nature

**Water-inspired activities for
COVID-times and beyond**

We all know that inquiry, discovery, playing freely, and even taking risks in the outdoors brings benefits that will last kids a lifetime. ClearWater Farm, a demonstration eco-farm on Lake Simcoe, has been pioneering play-based learning from nature programming for kids right from its launch.

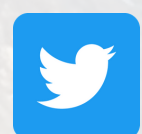

Get a behind-the-scenes preview of two extraordinary kids' fun-learning initiatives being launched this spring: a new e-book ("How to Think Like a Mushroom"), and an action-packed interactive website (ClearWaterKids.org) with experiments, games, activities, and videos. Both projects have the same mission: getting kids outside and loving nature!

Wednesday, May 19th at 1pm PST/4pm EST

Registration: watersheds.ca/freshwater-stewardship
