Fun-filled Experiences for Connecting Kids with Nature

ABOUT CLEARWATER FARM

ClearWater Farm envisions a world where people live in harmony with nature. Inspired by water, they exist to deepen young people's connections with the natural environment, marrying the arts, science, and technology to cultivate a more sustainable future: clearwaterfarm.ca

THE BENEFITS OF OUTDOOR LEARNING

Spending time outdoors brings kids benefits that last a lifetime. Connecting with nature provides young people the opportunity to develop their innate curiosity and also wisdom that helps the world turn as it should in a circle of give and take... which is the true meaning of stewardship. You don't have to be in the wild to do this! With a little imagination, kids in urban areas can also enjoy the wonders of hands-on exploration -- with parents, teachers, or by themselves.

CLEARWATER FARM'S EDUCATION RESOURCES

- *How to Think Like a Mushroom* being released summer 2021. This e-book is filled with activities and ideas for adults and kids to do together. It will be available for purchase on Amazon.ca
- The interactive, nature-inspired ClearWaterKids website filled with many free activities, videos, and games: clearwaterkids.org
- Watch ClearWaterKids' biodiversity booklist video, previewing the best Canadian kids' books on science and nature.
