

# Top 10 Actions You Can Take to Protect Your Local Freshwater!

*Protect your local freshwater this World Water Day, March 22, and beyond!*

- Use non-toxic cleaning products
- Fix leaky faucets
- Properly dispose of medications
- Avoid detergent pods
- Buy clothing made from natural fibres, or install a microplastic filter on your washing machine
- Reduce salt use on walkways
- Take care of your septic system
- Experiment with water-friendly landscaping
- Invest in a rain barrel
- Help with a community cleanup
