

— Planning for our Shorelands presents —

Top 5 Questions for Your Municipal Candidates

To Protect our Freshwater

1. What do you want to achieve in 4 years to help your municipality become a sustainability leader? How will you measure your success?
2. How will you pursue meaningful public consultation and open dialogue with residents?
3. How will you promote scientific evidence when making decisions?
4. How do you plan on investing in waterfront restoration in the face of increased development pressures?
5. How will you embrace partnerships with environmental organizations to help in the protection and restoration of waterfront areas?
