

lakes within the area. Working with partners, organizations and individuals, the Ecological Technician Students are responsible to assist in the delivery of our Love Your Lake Program. This will include field work focusing on carrying out shoreline assessments. The students will use the Love Your Lake Protocol to assess shoreline properties and lake habitats, enter data, and delivering online workshops and presentations.

Primary Responsibilities:

- Promote our program and engage new landowners in shoreline education projects.
- Represent the project, the proponent and partners at online environmental events.
- Solicit information from residents, attendees of local events, etc. that may contribute to data collection activities (surveys and evaluations).
- Help organize and deliver online workshops and presentations on both our program and habitat creation topics.
- Undertake administrative duties necessary for the execution of field work, including documentation of activities and reporting.
- Assist in the distribution of information packages and surveys to residents of our target lakes.
- Conduct fieldwork using the Love Your Lake Protocol and field sheets, analyze data and interpret results.
- Submit accurate and up-to-date field records for continued data analysis and reporting.
- Enter data into a secure database for reporting.
- Develop copy for outreach materials and content creation for media releases, social media, blogs, and videos.

Skills gained

- Client service
- Teamwork
- Communication
- Digital skills
- Leadership

Additional Responsibilities:

- Support other project components and staff as assigned by the management
- Act as a spokesperson for the organization
- **Travel using own vehicle (G license)**
- **Evening and weekend work is required**

Qualification Requirements:

Education

Some College or University, with preference given to those with a specialization in Natural Resources Management, Environmental Studies/Science or Biology.

Experience:

None required, however preference will be given to those with some experience in the conservation and/or non-profit sector(s).

Skills:

- Excellent judgment and decision making skills
- Comfortable with public speaking and engagement of the public
- Excellent English written and oral communication
