

# Shoreland and Freshwater Health Multimedia Experience

## Workshop & Native Seed Kits for Kids

Watersheds Canada is joining the 2024 edition of the annual “Wonders of Wetlands” event to engage local grade 3-4 students in water stewardship and give out native wildflower seed kits.

## Lessons and Activity Sheets for Students

Explore four Ontario-curriculum linked lesson plans and activity sheets educating and empowering middle and high school students to take action and help protect local freshwater.

## Education Video Lesson for Adults & Students

Watch a short video focusing on the impacts of development on freshwater resources and how humans manage factors such as stormwater runoff and natural buffers for shoreline health.
